this book constitutes the refereed proceedings of the 6th international conference sensornets 2017 porto portugal held in february 2017 and the 7th international conference sensornets 2018 funchal madeira portugal held in january 2018 the 18 full papers presented were carefully reviewed and selected from 67 submissions the papers cover the following topics sensor networks including hardware of sensor networks wireless communication protocols sensor networks software and architectures wireless information networks data manipulation signal processing localization and object tracking through sensor networks obstacles applications and uses

this volume contains the papers presented at ialcce2018 the sixth international symposium on life cycle civil engineering ialcce2018 held in ghent belgium october 28 31 2018 it consists of a book of extended abstracts and a usb device with full papers including the fazlur r khan lecture 8 keynote lectures and 390 technical papers from all over the world contributions relate to design inspection assessment maintenance or optimization in the framework of life cycle analysis of civil engineering structures and infrastructure systems life cycle aspects that are developed and discussed range from structural safety and durability to sustainability serviceability robustness and resilience applications relate to buildings bridges and viaducts highways and runways tunnels and underground structures off shore and marine structures dams and hydraulic structures prefabricated design infrastructure systems etc during the ialcce2018 conference a particular focus is put on the cross fertilization between different sub areas of expertise and the development of an overall vision for life cycle analysis in civil engineering the aim of the editors is to provide a valuable source of cutting edge information for anyone interested in life cycle analysis and assessment in civil engineering including researchers practising engineers consultants contractors decision makers and representatives from local authorities

this work represents a milestone for the uloop user centric wireless local loop project funded by the eu ist seventh framework programme uloop is focused on the robust secure and autonomic deployment of user centric wireless networks contributions by uloop partners as well as invited tutorials by international experts in the field the expected impact is to increase awareness to user centric networking in terms e g of business opportunities and quality of experience and to present adequate technology to sustain the growth of user friendly wireless architectures throughout the last 3 years uloop has developed enabling technologies for user centricity in wireless networks with particular emphasis on social trust management cooperation incentives community building mobility estimation and resource management this work will be of interest to researchers policymakers operators vendors and end users interested in the current and future directions of user centric access networks

this book covers all areas concerning mobility and wireless communications presented papers deal with cellular networks 2g 3g and 4g wireless networks ieee802 11 bluetooth and sensor networks security quality of service and applications accepted papers represent a good selection of research in wireless communications they offer an overview and also sharp visions of industrial and scientific work the proceedings have been selected for coverage in index to scientific technical proceedings istp cdrom version isi proceedings

this volume in conjunction with the two volumes lncs 4681 and lnai 4682 constitutes the refereed proceedings of the third international conference on intelligent computing held in qingdao china in august 2007 the conference sought to establish contemporary intelligent computing techniques as an integral method that underscores trends in advanced computational intelligence and links theoretical research with applications

this book will be the first covering the subject of ip address management ipam the practice of ipam includes the application of network management disciplines to ip address space and associated network services namely dhcp dynamic host configuration protocol and dns domain

name system the consequence of inaccurately configuring dhcp is that end users may not be able to obtain ip addresses to access the network without proper dns configuration usability of the network will greatly suffer as the name to address lookup process may fail imagine having to navigate to a website or send an email or an instant message by ip address instead of by name it s equally important that these dhcp and dns configurations be based on a common ip address plan which maps out the ip address hierarchy subnets address pools and domains ipam applies management disciplines to these core services including configuration change control auditing reporting and so on and they are necessary given the absolute requirement for properly managing ip space and dhcp and dns servers the linkages among an ip address plan dhcp server configuration and dns server configuration are inseparable a change of an ip address will affect dns information and perhaps dhcp as well these functions provide the foundation for today s converged services ip networks so they need to be managed using a rigorous approach today there is no single book that covers the management of these linkages and services they provide ip address management principles and practice will fill that gap while several books are available for leading vendors dhcp and dns services implementations few exist for ip address planning and none exist that unifies these three topics to obtain a free copy of the ipam configuration guide please send an email to ieeeproposals@wiley.com

this book covers all areas concerning mobility and wireless communications presented papers deal with cellular networks 2g 3g and 4g wireless networks ieee802 11 bluetooth and sensor networks security quality of service and applications accepted papers represent a good selection of research in wireless communications they offer an overview and also sharp visions of industrial and scientific work the proceedings have been selected for coverage in index to scientific technical proceedings istp cdrom version isi proceedings
